DETAILED ACTION

Claims 1-25 are pending in the instant application.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15 and 18-25, drawn to compositions and methods comprising nucleic acids, classified in class 435, subclass 6.
- II. Claims 16 and 16, drawn to compositions comprising proteins, classified in class 530, subclasses 300 and 350.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are biologically, chemically, structurally and functionally distinct from each other and thus one does not render the other obvious. The protein of Group II is not required to produce the nucleic acids of Group I and the nucleic acids of Group I are not required to produce the protein of Group II (which could be synthesized or purified from an appropriate source). Furthermore the methods steps of Group I do not require the protein of Group II.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Application/Control Number: 09/590,968

Art Unit: 1635

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
